Re: Notice of Intent (NOI) Filing - Proposed addition and deck - 14 Massasoit Drive

Applicant/Owner: Carl & Sharyn Dale

Dear Commission Members:

Enclosed please find two (2) copies of the WPA – NOI Form with required attachments and seven (7) copies of supporting plans filed under the Massachusetts Wetlands Protection Act and the Leicester Wetlands Bylaw on behalf of the Applicant and Owner for the above referenced property. The applicant is seeking an Order of Conditions to construct an addition and deck within the outer Buffer Zone associated with Waite Pond. No work is proposed within approximately 57 feet of the delineated wetland boundary on the site. Additionally, the project area consists of flat topography and no grade changes are proposed as part of the project. A detailed wetland resource area report is attached for your information.

The filing is comprised of:

- 1. The WPA Form 3 -NOI Form with required attachments;
- 2. The NOI Wetland Fee Transmittal Form and photocopy of checks;
- 3. Notification to Abutters letter with Leicester 300-ft Abutter list;
- 4. WPA filing fee check to the Town of Leicester in the amount of \$62.50.00;
- 5. Bylaw filing fee check to the Town of Leicester in the amount of \$25.00;
- 6. Wetland Resource Evaluation, 14 Massasoit Dr, Leicester MA, prepared by EcoTec, Inc., dated 5/23/2017;
- 7. Site Plans prepared by Levesque Geomatics, Inc., dated 5/18/2019;

One (1) copy of the filing has also been sent certified mail/return receipt to the DEP Central Regional Office.

We look forward to discussing this project with the Commission at the next available public hearing. If you have any questions, please feel free to contact me at any time.

Sincerely,

Scott Jordan

Senior Environmental Scientist

Scott Gordan

F. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge. I understand that the Conservation Commission will place notification of this Notice in a local newspaper at the expense of the applicant in accordance with the wetlands regulations, 310 CMR 10.05(5)(a).

I further certify under penalties of perjury that all abutters were notified of this application, pursuant to the requirements of M.G.L. c. 131, § 40. Notice must be made by Certificate of Mailing or in writing by hand delivery or certified mail (return receipt requested) to all abutters within 100 feet of the property line of the project location.

Collater .	24 MAY 2019
1. Signature of Applicant	2. Date
3. Signature of Property Owner (if different)	4. Date
Signature of Representative (if any)	6. Date

For Conservation Commission:

Two copies of the completed Notice of Intent (Form 3), including supporting plans and documents, two copies of the NOI Wetland Fee Transmittal Form, and the city/town fee payment, to the Conservation Commission by certified mail or hand delivery.

For MassDEP:

One copy of the completed Notice of Intent (Form 3), including supporting plans and documents, one copy of the NOI Wetland Fee Transmittal Form, and a **copy** of the state fee payment to the MassDEP Regional Office (see Instructions) by certified mail or hand delivery.

Other:

If the applicant has checked the "yes" box in any part of Section C, Item 3, above, refer to that section and the Instructions for additional submittal requirements.

The original and copies must be sent simultaneously. Failure by the applicant to send copies in a timely manner may result in dismissal of the Notice of Intent.

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

B. Fees

Fee should be calculated using the following process & worksheet. *Please see Instructions before filling out worksheet.*

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

End of Report

Prepared by: Kathleen Asquith, Assistant

John Prescott, Principal Assessor

Subject property: 14 Massasoit Drive, Assessors Map 21A-A26-0, Deed Ref. 12236/303 Subject owner(s): Carl & Sharyn Dale Above is a certified list of abutters and abutters to abutters within 300 feet of subject.

Notification of Abutters Under the Massachusetts Wetlands Protection Act and the Town of Leicester Wetlands Bylaw

In accordance with the second paragraph of Massachusetts General Laws Chapter 131, Section 40, you are hereby notified of the following:

- A. The name of the applicant is Carl & Sharyn Dale.
- B. The applicant has filed a Notice of Intent with the Conservation Commission for the municipality of Leicester seeking permission to construct an addition and deck within the 100-foot Buffer Zone associated with an Area Subject to Protection Under the Wetlands Protection Act (General Laws Chapter 131, Section 40) and the Town of Leicester Wetlands Bylaw.
- C. The address where the planned activity will take place is 14 Massasoit Drive, Leicester MA.
- D. Copies of the Notice of Intent may be examined and obtained by making an appointment at EcoTec, Inc., 102 Grove Street, Worcester, MA, during regular business hours.
 - For more information call Scott Jordan of EcoTec at (508) 752-9666 extension 226, to make an appointment to review the filing materials. This is the applicant's representative.
- E. A public hearing will be held on the matter in the Leicester Town Hall on June 12, 2019 at 6:30. Information regarding the date, time and place of the public hearing may be obtained from EcoTec, Inc., by calling this telephone number (508) 752-9666 extension 226, during regular business hours.

NOTE: Notice of the public hearing, including the date, time and place will be published at least five (5) days in advance in the Worcester Telegram and Gazette.

NOTE: Notice of the public hearing, including the date, time and place will be posted in the Town Hall not less than forty-eight (48) hours in advance.

NOTE: You also may contact your local Conservation Commission or the nearest Department of Environmental Protection Regional Office for more information about this application or the Wetlands Protection Act. To contact DEP, call:

Leicester Conservation Commission: 508-892-7007

Carl & Sharyn Dale 14 Massasoit Drive Leicester, MA 01524

RE: Wetland Resource Evaluation, 14 Massasoit Drive, Leicester, Massachusetts

Dear Mr. & Mrs. Dale:

On April 5, 2019, EcoTec, Inc. inspected the above-referenced property for the presence of wetland resources as defined by: (1) the Massachusetts Wetlands Protection Act (M.G.L. Ch. 131, § 40; the "Act") and its implementing regulations (310 CMR 10.00 *et seq.*; the "Regulations"); (2) the Town of Leicester Wetlands Bylaw and its implementing regulations; and (3) the U.S. Clean Water Act (i.e., Section 404 and 401 wetlands). Scott Jordan, CPESC conducted the inspection.

The subject site consists of an existing single-family home with associated lawn, driveway and detached garage. The wetland resources observed on the site are described below.

Methodology

The site was inspected, and areas suspected to qualify as wetland resources were identified. The boundary of Bordering Vegetated Wetlands or, in the absence of Bordering Vegetated Wetlands, Bank was delineated in the field in accordance with the definitions set forth in the regulations at 310 CMR 10.55(2)(c) and 310 CMR 10.54(2). Section 10.55(2)(c) states that "The boundary of Bordering Vegetated Wetlands is the line within which 50% or more of the vegetational community consists of wetland indicator plants and saturated or inundated conditions exist." Section 10.54(2)(c) states that "The upper boundary of Bank is the first observable break in the slope or the mean annual flood level, whichever is lower." The methodology used to delineate Bordering Vegetated Wetlands is further described in: (1) the BVW Policy "BVW: Bordering Vegetated Wetlands Delineation Criteria and Methodology," issued March 1, 1995; and (2) "Delineating Bordering Vegetated Wetlands Under the Massachusetts Wetlands Protection Act: A Handbook," produced by the Massachusetts Department of Environmental Protection, dated March 1995. The plant taxonomy used in this report is based on the National List of Plant Species that Occur in Wetlands: Massachusetts (Fish and Wildlife Service, U.S. Department of the Interior, 1988). Federal wetlands were presumed to have boundaries conterminous with the delineated Bordering Vegetated Wetlands and Bank. The table below provides the Flag Numbers, Flag Type, and Wetland Types and Locations for the delineated wetland resources.

Flag Numbers	Flag Type	Wetland Types and Locations
Start A1 to A4 Stop	Blue Flags	Upper Boundary of Bank associated with Waite Pond in the eastern portion of the site.

Findings

Wetland A (i.e., flags A1 to A4) consists of the upper boundary of the Bank located in the eastern portion of the site that is associated with Waite Pond. The Bank in this area consists of an abrupt, steep stone banking. Based upon a soils and vegetation evaluation, it is EcoTec's opinion that no Bordering Vegetated Wetland (BVW) is present on the site. The pond would be regulated as Bank and Land Under Water Bodies and Waterways under the Act and Bylaw. A 100-foot Buffer Zone extends horizontally outward from the edge of Bank under the Act and Bylaw.

Bordering Land Subject to Flooding is an area that floods due to a rise in floodwaters from a bordering waterway or water body. Where flood studies have been completed, the boundary of Bordering Land Subject to Flooding is based upon flood profile data prepared by the National Flood Insurance Program. Section 10.57(2)(a)3. states that "The boundary of Bordering Land Subject to Flooding is the estimated maximum lateral extent of flood water which will theoretically result from the statistical 100-year frequency storm." The project engineer should evaluate the most recent National Flood Insurance Program flood profile data to determine if Bordering Land Subject to Flooding occurs on the site. Bordering Land Subject to Flooding would occur in areas where the 100-year flood elevation is located outside of or upgradient of the delineated Bank boundary. Bordering Land Subject to Flooding does not have a Buffer Zone under the Act or the Bylaw.

The Massachusetts Rivers Protection Act amended the Act to establish an additional wetland resource area: Riverfront Area. Based upon a review of the current USGS Map (i.e., Worcester South Quadrangle, dated 1983, attached) and observations made during the site inspection, there are no mapped or unmapped streams located within 200 feet of the site. Accordingly, Riverfront Area would not occur on the site. Riverfront Area does not have a Buffer Zone under the Act.

The Regulations require that no project may be permitted that will have any adverse effect on specified habitat sites of rare vertebrate or invertebrate species, as identified by procedures set forth at 310 CMR 10.59. Based upon a review of the *Massachusetts Natural Heritage Atlas*, 14th edition, Priority Habitats and Estimated Habitats from the NHESP Interactive Viewer, valid from 8/7/2018, and Certified Vernal Pools from MassGIS, there are no Estimated Habitats [for use with the Act and Regulations (310 CMR 10.00 *et seq.*)], Priority Habitats [for use with Massachusetts Endangered Species Act (M.G.L. Ch. 131A; "MESA") and MESA Regulations (321 CMR 10.00 *et seq.*)], or Certified Vernal Pools on or in the immediate vicinity of the site. A copy of this map is attached.

14 Massasoit Dr., Leicester May 23, 2019 Page 3.

The reader should be aware that the regulatory authority for determining wetland jurisdiction rests with local, state, and federal authorities. A brief description of my experience and qualifications is attached. If you have any questions, please feel free to contact me at any time.

Scott Jordan, CPESC Senior Environmental Scientist

Scott Jordan is an Environmental Scientist with EcoTec, Inc. Since joining EcoTec in 2000, Mr. Jordan's duties have included wetland resource evaluation and delineation; erosion and sediment control planning and monitoring, environmental monitoring, including water quality analysis, sediment analysis and wildlife habitat impact analysis; environmental permitting at local, state, and federal level; pond and stream evaluation; wildlife habitat evaluation, vernal pool evaluation; and wetland restoration and replication design and oversight. He has served as an environmental consultant to the development community, engineering firms, municipalities, and conservation commissions. Prior to joining EcoTec, Mr. Jordan was the Senior Laboratory Technician for GeoComp Corporation where he performed numerous physical properties analysis of soils and geosynthetic materials in accordance with ASTM, and AASHTO specifications. approximately seven years experience evaluating New England soils includes soil analysis and classification of site-remediated soils with oil and hazardous material contamination. educational background includes courses in organic and inorganic chemistry, biology, botany and comparative vertebrate physiology, with extensive coursework in ecology and wildlife biology; and he has completed several professional training seminars including erosion and sediment control, soil evaluation, wildlife habitat evaluation, wetland mitigation, vernal pool evaluation, water quality assessment using macro-invertebrates, and river morphology and functions. He has participated in several rare species and wildlife monitoring and inventory projects, including marsh bird surveys, marbled salamander (Ambystoma opacum) survey, great laurel (Rhododendron maximum) survey, wood turtle (Glyptemys insculpta) habitat assessments and sweeps, eastern box turtle (Terrapene carolina) habitat assessments, and greater blackbacked gull (Larus marinus) inventory. His prior research experience includes behavioral and acoustic studies of the common loon (Gavia immer) in northwestern Maine.
