**RE: Certificate of Compliance Request  
MassDEP File #197-0674  
Jack Daige, Central MA Crane  
112 Huntoon Memorial Highway, Rochdale, MA 01542**

Dear Commission Members:

McClure Engineering, Inc. (McClure) submits this request on behalf of Jack Daige, Central MA Crane to accompany the Massachusetts Department of Environmental Protection (MassDEP) WPA Form 8A – Request for Certificate of Compliance. The Leicester Conservation Commission issued an Order of Conditions dated 10/13/21, for 112 Huntoon Memorial Highway, for plans titled “Site Plan Modification” dated 8/20/21 prepared by McClure Engineering, Inc. The plans were developed to support the parking lot expansion at the existing Central MA Crane site.

**STATEMENT OF AS-BUILT CONDITIONS**

I, Peter Engle, do hereby certify that to the best of my knowledge and belief, and based on on-site observation, the construction and installation of activities for which MassDEP #197-0674 was obtained has been performed in accordance with approved plans and specifications as required by the Order of Conditions and Administrative Orders set forth by the Town of Leicester Conservation Commission, dated 10/13/21.

The site appears to be constructed per the approved plans and is fully stabilized. The stormwater management system appears to be constructed per the design plans and is functioning as designed. There is good vegetation growth on site, and there are no apparent signs of any erosion that would impact the wetland buffer zone or resource areas. To the best of my knowledge and belief, based upon site conditions the construction of the site was completed in accordance with the Order of Conditions dated 10/13/21.

Please contact McClure at 508.248.2005 with any further comments or questions relating to the issuance of this Certificate.

Sincerely,

Peter C. Engle, P.E.
