RE: Stiles Lake Permit Renewal

---

Hello Jay,

Since the latest extension of this permit was in effect during the Covid State of Emergency, this permit is automatically extended 462 days with a **new expiration date of April 10, 2024**. Please let me know if you wish to request further extension of this permit expiration date at this time. Now that the dam has been repaired MassDEP will be considering whether a 6 foot drawdown is appropriate, when evaluating extension requests.

Please let me know if you have any questions.

Thanks,

Judy
