Water/waste water study update

The second semester WPI Student Water/Waste Water Study Report was presented at the Selectmen's Meeting on May 2nd. The report indicated the need for the water/sewer districts to work together and consolidate. It was noted that if the Moose Hill water stayed within the Town's boundaries, an Inter-basin Transfer would not be required. A paper copy on the report has not yet been made available.

The outstanding question regarding the 99 year lease was not part of the study, and the Commissioners agree that question needs to be answered. They felt it could be beneficial. All agreed if another round of studies were to take place that another request be made that the 99 year lease be investigated.

A letter is to be sent to the Town Administrator asking to meet and discuss where the support and development of the Moose Hill Reservoir sits with the Board of Selectmen.

Dam Inspection Report

Still waiting for final report from the State
