The Opportunity of a Lifetime

The opportunity to create a campus atmosphere for our students at the former Becker College/Leicester Junior College/Leicester Academy is exciting - and is the opportunity of a lifetime for the students of Leicester.

Although there will be plenty of re-purposing, remodeling and creative thinking to make this a reality, the site has enormous potential. Beyond the obvious benefit of having a college campus as our high school, we could open the door to possibly offering vocational components, and/or creating a collaborative program (enabling us to bring back our special education students).

Vision: Growth

Our student athletes and youth sports teams would have the opportunity to play on a newly renovated turf field and in a college gym, addressing the struggle our town leagues and schools have faced with limited field and gym availability over the years.

Vision: Athletics

Vision: Destination District

Leicester: A Destination District

The vision of securing a safe, autonomous and comprehensive high school for our current population of 450 students, includes the use of several buildings, including the Fuller Campus Center (1), Campus Center West (2), Borger Academic Center (4), Swan Learning Commons (7), Knight Hall (6), and the gymnasium (11) and fields (13). With an eye toward the future, there is the prospect of housing vocational and/or special education programs in the Lenfest Animal Health Center (10), as well as Berkshire and Hampshire Halls (20, 21).

Vision: Real World Learning

LEICESTER
PUBLIC SCHOOLS
KNOWLEDGE • SKILLS • CHARACTER

Maintaining Lenfest Animal Health Center (10), as well as Berkshire and Hampshire Halls (20, 21) for future use would allow us to realize the vision of providing opportunities not only for our students, but for becoming a destination district for area students, and possibly partnering with other area vocational schools. Berkshire and Hampshire Halls could also open the door for summer academies, adventure sleep-away camps, and transitional programs for our special education students.

Envision the Future

Should the town support the purchase of Becker, our plan would include moving the middle school to the current high school, and removing the middle school building for field use (there is also the possibility of maintaining the current middle school cafeteria and gym for town use). Leicester Academy could also expand beyond grades 9-12 in the future, depending on the growth and vision of the programming.

Thank You!
